

GIVE HOPE FOR THE HOLIDAYS.

CALEB, NOW CANCER-FREE

“We will never forget how we felt when our grandson Caleb went through treatment to cure leukemia when he was just three years old. This past September 17, five years later, his oncologist declared him cancer-free. With our family’s nightmare over, we realized how important it is to give blood and platelets. If you donate blood and platelets, thank you! Encourage others to give. It saves lives.”

- Jeri (Grandmother and Blood Center volunteer) and Jerry Lee (Grandfather and 8 gallon platelet donor)

When you give, you’re helping patients like Caleb. We hope you can make time this month to help save lives with us
