Village of Rapids City Residential Cross Connection Control Survey

In order to protect Village of Rapids City's water supply from being contaminated, we are conducting a survey to determine if there are hazardous conditions that could affect our drinking water.

We appreciate you taking time to complete and returning the survey with your bill or by email at vorc@rapidscity.us.

If you have questions regarding the survey please contact Ryan Bump at the Public Works Department phone number 309-496-2321.

Name:						
Address:						
City:			State:			
Zip:		Phone #:				
Email Address:						
Water Account Number:						
Are you the property owner?						
Yes	🗌 No

Swimn	ning Pool/Hot Tub?	
☐ Ye		
	If so, is there a backflow valve present? Yes No If so, when was the last passed inspection?	
Other	Equipment with a Direct Connection to Village Water: s	_

The Illinois Department of Public Health Plumbing Code requires hose vacuum breakers to be attached to all out door faucets. The devises protect the plumbing system from being contaminated by any substance which might enter the water hose (lawn fertilizer, herbicide, soap etc.) Hose vacuum breakers are available at most hardware stores or through your local plumbing contractor.

The information provided in this survey form is an accurate and current description of the water system at this address. Please print and sign your name and date on provided lines after completing this survey. We appreciate you taking time to complete and returning the survey with your bill or by email at vorc@rapidscity.us.
