July 12, 2016(continued)  
Village of Rapids City  
Rock Island County, Illinois

**PUBLIC WORKS – Fowler:** No report. Bump said that the 15<sup>th</sup> Street project is moving along. The curb and gutter to be put in today on the East side of the street was slowed by rain but 11<sup>th</sup> Avenue is done. It just needs some back fill. The pads and poured for the generators. The generators will be set next week. MidAmerican still has not gotten back to Ryan. Price said she left a message and sent an email to MidAmerican and they have not gotten back to her either.

**SEWER –Schneider:** The numbers do not look too bad.

**WASTE MANAGEMENT – Fowler:** Fowler said there was glass still in the streets by Don Hunt and Tom Reichwein's house. There is also some in front of Sarah Peterson's house. Price will contact Allied and ask for a representative to attend the next board meeting. Price will send a copy of our contract to our attorney for review.

**WATER –Schneider:** Schneider brought to the attention of the board that they should look at water rates and future improvements. The board should consider the long term budget. Bump said that the new panel is working well at the pump house. The issue of a resident filling the pool from the fire hydrant was discussed. The resident was billed for \$42 and this has already been paid. This resident paid for more water than he used to fill the pool because he paid by pool size. Bump can authorize residents with experience and equipment to do this. Ryan allows Phoenix Corp and the contractors who clean the bridge to get water from the hydrants. Rankin contacted Chief Carey and he said no code violation was committed by this. There was a perception that something was going on that really wasn't.

**OLD BUSINESS:** Fowler wanted to bring back up the issue of the fire hydrant again. She wanted to know if there is an option for all owners of pools to fill them from a hydrant. Rankin said that if a person has the tools and experience he doesn't see a problem with it. It would have to be okayed through Bump first. The ordinance leaves it to the discretion of the public works director. Bump would have to look at access situations and could go case by case. There would be a fee for Ryan's time if he did the work. Bertelli stated that the board should not get into the business of filling pools. Residents may purchase a 2<sup>nd</sup> meter just for water for outside use. The board talked about possibly a onetime annual fill. Clerk Price will put this on the agenda for next month to discuss further.

**NEW BUSINESS:** Dave Wilson was here to discuss the storm water runoff. On July 6<sup>th</sup> when we had a storm, the culvert got damned up on 14<sup>th</sup> Street and water ran into his garage. This is a private property issue. The village will look into this problem but can't promise anything. Rankin will work with Ryan to see if there is something that can be done. Schneider recommended notifying the neighbor with a letter concerning trees that is across the ditch and appears to be damming it up. Wilson commended the public works for cleaning the culvert right away.

**PUBLIC DISCUSSION:** None.

With nothing further to be discussed Schneider motioned to adjourn and all concurred, President Rankin adjourned this July 12, 2016-regular meeting at 8:26 p.m.
