Virtually Present: None.

President Mire asked for a moment of silence for our troops and families that have given the greatest sacrifice with the recent events and those who have suffered from the effects of hurricane Ida. Mire also asked for all residents to be respectful and not to argue, only addressing the Commission Members when speaking.

Murphy opened the hearing by reading the rezoning request from Kathy Sattizahn to rezone her property from R-1 to R-2 for the purpose of operating a luxury residential short term rental property with her staying in the suite over the garage while the main dwelling is rented. The request pertains to Kathy Sattizahn's property located at 1814 1st Avenue, Rapids City, IL. In Kathy's letter she addressed parking for guests, how many guests she plans to rent to, what rental intentions would not be allowed, noting her request for zoning would not follow any additional property owners in the future.

Sattizhan spoke on behalf of her request stating the new portion to this request was that her rezoning would only apply to her as the property owner and not future owners, she has changed the maximum occupancy and which portion of her home she plans to rent. She states she made the changes and compromised her plans as she states she listened to concerns from her previous zoning request.

Murphy stated he had a number of protests submitted in opposition to the request filed with the Village Office. Murphy asked by show of hands if any of the protesters were in attendance, several in attendance did raise their hands. Murphy asked if any of the protesters wished to drop their protest by show of hands to which no hands were raised, nor were there anyone that spoke to revoke their protest.

Murphy asked for a vote of agreeance to not recommend to the Village Board the passage of this request be denied. McLaughlin and McCoy both voted to agree to not recommend the passage.

With no further matters to conduct by consensus of the Planning and Zoning Committee this August 30th, 2021 Public Hearing is adjourn at 6:09pm.

Members of the audience continued to converse and address each other and Commission members at which Murphy and McCoy stated any further discussions would need to be
